

EUROPAFILTER

KEEP IT CLEAN

Europafilter and Framo

Europafilter cleaning system has been applied on **Astoria**, a vessel in the **Veritas Tankers** fleet since 2009. The vessel uses Framo hydraulics and started using Europafilter cleaning system because of the high cost of the Framo factory filter. Their factory filter consumption has drastically reduced and the cleanliness of the oil is even better than before.

Ship specifics

Built:	Newbuilding No 11-1057 at Juron shipyard, Singapore
Length over all:	137.7 m
Deadweight at 8.0m	13 080 dwt
Cargo pumps:	12 x 330 m3 /h deepwell FraMo pumps
Ballast pumps:	2 x 500 m3 /h deepwell FraMo pumps
